Meeting to go over the QCR process and generic (cross-IOU findings) issues.

All 3 IOUs will be participating in this call, with a follow-up call to go over IOU specific topics.

Discussion items:
1) Common "problem areas" across IOUs
a. Debt equivalency
b. Price equivalency
2) Ideas on better aligning data between ERRA and QCR filings
3) Methods to incorporate changes from audit findings into QCRs, including timing and dealing with delays between audit findings and current "vintage" of QCR

4) Public versions of audit memos
5) Other IOU feedback on the 2009 QCR process
