Re: Alpine Suntower Energy Project

Dear Tim,

Alpine SunTower, LLC ("Seller") and Pacific Gas and Electric Company ("PG&E") are Parties to that certain Power Purchase and Sale Agreement dated May 27, 2009 ("PPA"). All capitalized terms used but not defined herein shall have the meanings provided to them in the PPA.

PG&E filed the PPA with the California Public Utilities Commission ("CPUC") on June 25, 2009 as Advice Letter 3481-E ("Advice Letter"). Seller has approached PG&E with a request to amend the contract and as such the California Public Utilities Commission ("CPUC") has advised PG&E that the CPUC needs additional time to review the Advice Letter. By executing this letter agreement, the Parties agree to delete the words "two hundred and forty (240) days" in Section 11.2 of the PPA and replace with the words "three hundred and sixty (360) days." This modification will extend the time period for satisfying the Conditions Precedent in Section 11.1 to June 20, 2010.

PG&E requests that Seller confirm its agreement to the foregoing by executing this letter, faxing an executed copy to me at (415) 973-9176, and returning the original, executed letter to me at the above-referenced address.

Do not hesitate to contact me with any questions.

Very truly yours,

Garret P. Jeung
Sr. Director, Structured Transactions
