RE: Energy Division Request for Updated Emergency Plan and Related  
SDG&E Internal Procedures Manual – SDG&E Response

Dear Werner:

On behalf of SDG&E, please find three (3) copies of the above referenced document. We have updated and assembled these into single three-hole copies for you to incorporate into the existing three-ring binder per your letter of November 29, 2000. The items that accompany the annual report are replacements for the existing parts of the manual. Please bear in mind that this binder is a collection from various sources and is not maintained in this format within SDG&E.

The Emergency Plan is a public document under General Order 166. However, attachments to pages 46-47, 92 and 105 are considered confidential information pursuant to the PUC Code Section 583 and General Order 66-C, the “Related SDG&E Internal Procedures Manual” and therefore should be treated as such.

If you have any questions regarding this enclosed information, please call me at 858.654.1779.

Sincerely,

  
Billie Overturf  
Regulatory Affairs Information Group Manager
