Patrols

On the weeks of 4-1-14 through 4-20-14, we patrolled all of our overhead and underground structures while connecting our irrigation pumps.

Overhead Detailed In's

We have done detailed inspections on all of our Modoc substations' north circuit and all of our Davis Creek substations', north and south circuits. (11%)

Underground Detailed In's

We have done detailed inspections on all of our underground structures on our Davis Creek, north, and south, as well as Modoc, north circuit. This is a total of 25 structures. (4%)

Wood Pole Intrusive

We have not done any intrusive inspections this reporting period.

Thanks,
 Dennis Reed
 Line Superintendent
