

PUBLIC UTILITIES COMMISSION

505 VAN NESS AVENUE
SAN FRANCISCO, CA 94102-3298

To: Generating Asset Owners

Date: February 24, 2006

Subject: Data Request Regarding Historical GADS Data

Our letter of June 14, 2005 required, among other things, that Generating Asset Owners (GAOs) with plants 50 megawatts or above submit GADS data to NERC beginning January 1, 1998 through the third quarter of 2004. Based upon our conversations with GAOs, including the January 9, 2005 mediation, CPSD has decided to suspend this requirement for generators that do not have that data readily available. We plan to issue a revised request for data from this time after further discussions with you. Other requirements stated in the June 14, 2005 letter remain in effect.

If you have further questions regarding this matter, please contact the CPSD power plant hotline at (415) 355-5503.

Sincerely,

Richard Clark, Director
Consumer Protection and Safety Division
California Public Utilities Commission

Enclosure;

Letter of June 14, 2005; Subject: Submission of GADS Data to NERC and Authorization for Release

Cc: Michael Curley / NERC
