This image presents a **Visual Simulation** of the proposed Project from **KOP 4** on **Leon Road**, south of Scott Road at the intersection with Fowler Drive in the eastern portion of Paloma Valley. This simulation illustrates the replacement of the existing wood-pole line along the west side of the road with a new wood-pole subtransmission line, approximately 18 feet to the west of the existing line. The new poles will be noticeably taller and structurally more complex (to carry the additional conductors).
