Dear Forest Service, Aspen Environmental Group or whoever it may concern. I am a resident of Leona Valley because it is beautiful and peaceful. The alternative five proposal is an outrage. The community of Leona Valley will not accept being pushed around because of radical environmentalists. The U.S. Forest service has an abundance of land that could be easily be used, (as previously proposed by Edison.) What I don't understand is that Americans own Forest Land not the Government. Furthermore what difference does it make whether a DB bulldozer runs through a community or the forest?? The environmental impacts are substantial in either case. So please don't force it on average citizens like myself. Why don't you environmentalists run it through your backyard?

*Please print. Your name, address, and comments become public information and may be released to interested parties if requested.

Please either deposit this sheet at the sign-in table before you leave today, or fold, stamp, and mail. Insert additional sheets if needed. Comments must be postmarked by September 18, 2006. Comments may also be faxed to the project hotline at (661) 215-5152 or emailed to antelope-pardee@aspene.com.

I'll tell you why not, because you have power that is definitely abused. This abuse is supported by politicians, developers and radical environmental groups. I myself enjoy our national forest and would hate to see a project of this magnitude ruin it. But forcing this on average ordinary people that generally have a small voice in protest just isn't right.

D.63-1,
cont.

Thank You

Sincerely
