Subject: Bolsa Chica

Regarding the environmental impact report on the water line to the Bolsa Chica, I would like to state that there seems to be no adequate reason for such a line to be constructed.

14-1

The construction will affect many people negatively as they try to drive on Bolsa Chica Road and Valley View Blvd.

14-2

It seems that the developer, California Coastal Communities, Inc., should take the offer from the City of Huntington Beach to supply water. The reason that the company does not want to do this seems to be that they do not wish to declare themselves a willing seller. Would this be an adequate reason to inconvenience thousands of people over a very long time?

14-3

Sincerely,

Nancy Donaven

E-mail Received January 20, 2000

- 14-1 Thank you for your opinion. The project objectives are described in Section B.5 of the SEIR.
- 14-2 The Draft SEIR acknowledges that construction of the proposed water line would result in significant impacts to traffic (see Section C.3 of the Draft SEIR). The intention of the mitigation measures in the document is to minimize these impacts.
- 14-3 This opinion is noted.
