Master Response MR-1: Baseline	3
A. The Baseline Consists of the Existing Environmental Conditions, Including the Operating Diablo Canyon Power Plant.	3
B. The Authorities Presented by Commenters to Justify Deviation from the Existing Environmental Conditions as the Baseline are Inapplicable and/or Distinguishable.	8
C. The EIR Correctly Analyzes Environmental Conditions in 2013/2014 as the No Project Alternative.	9
Master Response MR-2: NRC License Renewal	11
A. Introduction.....	11
B. Laurel Heights Decision.....	12
C. Relicensing is Under the Exclusive Jurisdiction and Control of a Federal Agency; the CPUC Lacks Any Authority Over Relicensing.....	17
D. Relicensing is Not a Cumulative Project under CEQA.....	19
E. Even if Relicensing Were Considered a Cumulative Project, the Level of Discussion Contained in Section G of the EIR is Adequate.....	20
Master Response MR-3: NRC vs. CPUC Jurisdiction	21
A. Introduction.....	21
B. The CPUC Lacks Any Authority Regarding Nuclear Safety Issues and is Pre-empted From Regulating DCPD Operations.....	22
C. Since the CPUC is Pre-empted from Regulating DCPD Operations, It Does Not Have the Authority under CEQA to Mitigate Impacts from Those Operations.	24
