Subject: electric lines underground -0 NOT ABOVE.

We want and need those electrical lines underground and it is your duty to make sure that it happens.

Your frugality and complete lack of interest and concern in Sun Lakes, property and residents has prompted us to demand safety and appearance from you. As another SL member pointed out, how would you like to try to evacuate 5000 seniors in a few minutes because your overhead lines came down in a storm and caused fire.

You must make arrangements to put those lines underground. NOW.

Responses to Comment Set C43 – Julie R. Jeffery

- C43-1** Please see Draft EIR Section D.7 (Hazards and Hazardous Materials) for a discussion of fire hazards. Your support for the Partial Underground Alternative has been noted. The Environmentally Superior Alternative has been re-evaluated and is identified in the Recirculated Draft EIR, Section E (July 2008) as the Proposed Project. Please see General Response GR-1 for a discussion regarding the change in determination of the Environmentally Superior Alternative.
