Subject: Power Lines/Sun Lakes C.C.

To who it may concern

We are home owners in the Sun Lakes C.C. complex, located at 1291 Pauma Valley rd. Banning, CA. My wife & I are opposed to the proposed So. California Edison power lines construction in Banning, crossing the Sun Lakes C.C. property above ground. We request that the power lines be placed underground instead, therefore maintaining the unobstructed integrity of the complex as it was originally planned and sold to it membership.

C53-1

Thank You for your consideration in this matter.

Responses to Comment Set C53 – Joan and Maurice Aronzon

- C53-1** Your opposition to above-ground subtransmission line structures has been noted. Please note that the existing SCE ROW (including above-ground structures) has been in its current location since the 1930's, well before the Sun Lakes community was developed. The Environmentally Superior Alternative has been re-evaluated and is identified in the Recirculated Draft EIR, Section E (July 2008) as the Proposed Project. Please see General Response GR-1 for a discussion regarding the change in determination of the Environmentally Superior Alternative.
