**Subject:**

I am seriously requesting Southern California Edison please place their lines underground. I have a pacemaker, and I have lived on the golf course in Sun Lakes since 1989. If not placed underground, I would definitely have to sell my home and move. At 83 years old, it would not be a great move to start over again.

Thank you,

## Responses to Comment Set C54 – Helen Dow

- C54-1** Your support for the Partial Underground Alternative has been noted. The Environmentally Superior Alternative has been re-evaluated and is identified in the Recirculated Draft EIR, Section E (July 2008) as the Proposed Project. Please see General Response GR-1 for a discussion regarding the change in determination of the Environmentally Superior Alternative. Also, please see Draft EIR Section D.7 (Hazards and Hazardous Materials) for information on cardiac pacemakers.
