Subject: To Board of Directors, Sun Lakes C.C.

Dear Friends,

As a fellow member of our Sun Lakes Community, I hereby strongly express opposition to the proposed S.C. Edison Company's plan to construct overhead power lines across a portion of our lovely properties. Please use your vote, as members of our Board of Directors, elected to that office by the Sun Lakes residents, with the assurance that the best interest of all of us would be represented, to oppose the plan for unsightly overhead lines in favor of underground placement. There is also a potential health consideration for some of our neighbors, as well as a potential fire hazard to our Community - yours and mine! Thank you for your consideration in this crucial matter.

C58-1

Patricia Morris, 636 Torrey Pines Rd. - 769-6270

Start the year off right. [Easy ways to stay in shape](#) in the new year.

Responses to Comment Set C58 – Patricia Morris

C58-1 The CPUC has noted your opposition to the Proposed Project. The Environmentally Superior Alternative has been re-evaluated and is identified in the Recirculated Draft EIR, Section E (July 2008) as the Proposed Project. Please see General Response GR-1 for a discussion regarding the change in determination of the Environmentally Superior Alternative. Also, please see original Draft EIR (December 2007) Section D.7 (Hazards and Hazardous Materials) regarding health and fire concerns.

Please note that the CPUC is in no way connected to the “Sun Lakes C.C. Board of Directors,” which we assume is the Homeowner’s Association Board. The CPUC is a State of California agency charged with regulating Investor Owned Utilities such as SCE.
