**PROJECT MEMORANDUM
KIRBY HILLS NATURAL GAS STORAGE FACILITY PROJECT, PHASE 2**

To: Junaid Rahman, CPUC
From: Vida Strong, Aspen Project Manager
Date: July 3, 2008
Subject: Weekly Report #7: June 15, 2008 – June 21, 2008

CPUC ENVIRONMENTAL MONITOR (EM): Jody Fessler

CPUC EM Jody Fessler was on site Friday, June 20th.

WELL SITES:

Summary of Activity:

Well Site 21 (WS-21)

On Monday, Valley Drilling began installing well cellars and conductor pipes for the new wells at WS-21. On Tuesday, Valley Drilling completed the well preparation work at WS-21 (see Figure 1).

Well Site 22 (WS-22)

Throughout the week, Ensign Drilling continued drilling of WS22-8 at WS-22. Crews are still having problems drilling this well. They are drilling 24 hours a day, 7 days a week.

Well Site 23 (WS-23)

Monday through Friday, Asta Construction installed jute erosion control blankets around WS-23 (see Figure 2).

Observation Well Lambie 6 (Well L6)

No work activities occurred at Well L6 during the subject week.

Observation Well Lambie 7 (Well L7)

No work activities occurred at Well L7 during the subject week.

PIPELINE:

Summary of Activity:

No work activities occurred along the pipeline right-of-way during the subject week.

ACCESS ROADS:

Summary of Activity:

On Wednesday, Asta Construction graded and compacted the temporary access area west of Shiloh Road and south of the Kirby Hills access road (see Figure 3). The area was surveyed for ground nesting birds prior to this work by LGS's Environmental Inspector (EI). The wetland areas were avoided.

STAGING AREAS:

Summary of Activity:

The staging areas have been staked, but were not cleared at the time of the CPUC EM site visit.

COMPRESSOR STATION SITE:

Summary of Activity:

NTP #4 was issued on May 7, 2008 for crews to commence with the civil, mechanical, electrical, and instrumentation work at the Compressor Station site. NTP #6 was issued on June 13, 2008 for crews to set the compressor on the concrete foundations/pedestals once the BAAQMD permit it received. No work was started during the subject week.

Environmental Compliance:

The CPUC EM observed that all work activities were in compliance with the approved Mitigated Negative Declaration and other permit requirements. The CPUC EM reviewed PG&E EI daily reports and survey reports. Environmental training of crew personnel by LGS's Environmental Inspector (EI) was on-going as new crew personnel came onto the site. Sensitive environmental areas were staked, flagged, and/or fenced. Pre-construction bird surveys were completed prior to areas being cleared and graded. The wetland area near WS-23 was fenced-off and had silt fencing installed on the upslope side so potential erosion from WS-23 would not enter the wetland area. The CPUC EM observed water trucks continuously watering the work areas.

NOTICES TO PROCEED (NTP):

To date, six Notice to Proceed (NTPs) have been issued for the Kirby Hills Natural Gas Storage Facility Phase II Project. Additional NTPs are anticipated for the project.

TABLE 1
Notice to Proceed Requests
(Updated 7-03-08)

NTP #	Date Requested	Date Issued	Description
#1	4-11-08	4-21-08	Request authorization from the CPUC to commence with construction activities associated with three new wells (Well Sites 21, 22, and 23), a 2,700-foot-long pipeline (flow line), and access roads and staging areas for Phase II of the Kirby Hills Natural Gas Storage Facility Project.
#2	4-11-08	4-20-08	Request authorization from the CPUC to commence with reentry and conversion of Wells Lambie 6 and Lambie 7 to observation wells for Phase II of the Kirby Hills Natural Gas Storage Facility Project.
#3	5-2-08	5-6-08	Request a NTP from the CPUC for PG&E's hot tapping work at the Kirby Hills Natural Gas Storage Facility meter station, located west of Birds Landing Road in Solano County.
#4	4-29-08	5-7-08	Request authorization from the CPUC to commence with the civil, mechanical, electrical, and instrumentation work at the compressor station facility of the Kirby Hills for Phase II of the Kirby Hills Natural Gas Storage Facility Project.
#5	5-23-08	N/A	Request authorization from the CPUC for extra work space at the corner of Shiloh Road and the access road to Kirby Hills. This work space was already approved under NTP #1 and therefore NTP #5 is not necessary. Wetland areas within the work space will be totally avoided.
#6	6-9-08	6-13-08	Request to install compressor units on foundations at Compressor Station.

VARIANCE REQUESTS:

No Variance Requests have been submitted to the CPUC to date.
