Environmental Impact Report Topic: \_\_\_\_\_

Comments: Solar Power over Wires and Poles

No high wire acts across the sky  
are needed when the power of the  
SUN is already splashing across our  
faces.

Do not allow ~~to~~ the interests  
of a powerful few to steal our  
Sunshine, with towers of steel.

The power in the sky, this solar  
energy, is already has a transmission  
system on beams of light.

The trees and the flowers are already  
a part of this system, let us catch  
up and start something new.
