Environmental Impact Report Topic: fire danger

Comments: _____

In light of the recent wildfires (we lost our home in the 2003 Cedar fire), I can't imagine why this portion of the Powerlink won't be underground. I'm not opposed to the link if it's all underground. Sempra Energy doubled their profits this past year - surely they can afford these extra safety measures. And first think should be maintaining the beauty of the natural landscape & the habitat of local wildlife.
