San Francisco, CA 94104

I am writing to you in regards to the Sunrise Powerlink Project. My husband and I camp at Ocotillo Wells desert all the time. We have lots of friends and family that do also. Our friends, Shauna and Joe Callens own property there. We have lots of children that also camp with us and we want a safe and healthy environment. The desert is a beautiful place and we like it just the way it is.

Our preference is to complete the entire portion of the powerlink from the San Felipe Substation (SR-78-0) to ER-2 underground.

Thank you for your time in this matter.

Michelle and Johnnylee Allen
