First of all , I would like to thank the CPUC and Judge Weissman for allowing me to voice my opposition to the proposed Sunrise Power Link project

Finally I am opposed to the project because the very idea that a special interest group { such as SDG&E and their parent company Sempra } would have the rate payers best interest at heart and the well being of the residents of San Diego and its surrounding communities as its first interest is an insult to every thinking person who lives here.

Sincerely,

Kevin Krekelberg
