**Re: Data Request #11 for the SDG&E Sunrise Powerlink Transmission Project,
Application No. 06-08-010**

Dear Mr. O'Beirne:

The California Public Utilities Commission's (CPUC) Energy Division has reviewed the documents and materials that SDG&E has provided including the Proponent's Environmental Assessment (dated August 4, 2006), the Application Supplement Materials (dated September 1, 2006), and SDG&E's Response to Data Requests No. 1 through 10 (partial response received of DR9; DR 10 still pending). During the analysis of the aforementioned materials and in our preparation of EIR/EIS sections, we have identified additional items that require information from SDG&E. Additional data requests may be necessary to address alternatives and other CEQA/NEPA topics. This letter constitutes Data Request No. 11.

ALT-83 Please provide preliminary engineering (tower locations) for the alternative in which the double-circuit 230 kV towers would continue straight through the Tulloch property (following the existing 69 kV line) onto Cleveland National Forest land, rather than jogging west and then south to avoid Forest land. (See illustration on following page; around Milepost 112)

We would appreciate your prompt response to this request, which will allow us to maintain our current EIR/EIS schedule. We request that the response to this request be provided to us by May 11, 2007.

Please submit one set of responses to me and one to Susan Lee at Aspen in San Francisco, in both hard copy and electronic format. Any questions on this data request should be directed to me at (415) 703-2068.

Sincerely,

Billie C. Blanchard, AICP, PURA V
Project Manager for Sunrise Powerlink Project
Energy Division, CEQA Unit
