

Michael Clayton & Associates

The **existing view** to the north toward the existing SWPL transmission line as it crosses Sugarloaf Mountain before ascending In-Ko-Pah Gorge. The view is from eastbound Interstate 8, south of Sugarloaf Mountain and just north of In-Ko-Pah Gorge. The I-8 Alternative would be located adjacent and to the west (left in the image above) of the existing SWPL line. This view captures the route as it spans the westbound I-8 lanes and then parallels the two directions of travel through In-Ko-Pah Gorge.

Key Viewpoint 47
Sugarloaf Mountain
