

A The **existing view** to the northeast toward the existing SWPL transmission line as it passes just south of Table Mountain ACEC. The transmission line and the curvilinear form of Old Highway 80 are prominent built features in the landscape.

B This image presents a **visual simulation** of the I-8 Alternative located adjacent to the existing SWPL line. The new structures would add structural complexity and industrial character to the predominantly natural appearing landscape.

Interstate 8 Alternative
Key Viewpoint 48
South of Table Mtn. ACEC
