

Michael Clayton & Associates

A The **existing view** to the east-northeast toward Tecate Ridge (lined with wind turbines) and the Campo North Option route that would parallel I-8 to the immediate north. Much of the landscape north of I-8 is natural in appearance.

B This image presents a **visual simulation** of the Campo North Option from eastbound I-8, approximately 0.7 mile east of Crestwood Road. The structures would be visually prominent to both east- and westbound travelers on I-8.

Campo North Option
Key Viewpoint 58
Eastbound Interstate 8
