

The **existing view** to the west toward the South Bay Replacement Project site (SBRP), from Brentwood Park, a residential mobile home development, located to the immediate east of the site on the east side of I-5, between Moss Street and Palomar Street. Existing trees along the west side of the development and screens much of the view of the site and the existing South Bay Power Plant (SBPP) is not visible from this location. Views from this location are limited to the residences and common areas within the development.
