

Michael Clayton & Associates

A The **existing view** to the south-southeast down San Felipe Road in San Felipe Valley. The western foothills of the Grapevine Mountain Wilderness are prominently visible to the east (left) of the flat valley floor.

B This image presents a **visual simulation** of the Partial Underground 230 kV ABDSP SR 78 to S2 Alternative from San Felipe Road (S2). Transition and tangent structures would be prominently visible along the eastern edge of the valley.

Partial Underground ABDSP SR78 to S2
