

Michael Clayton & Associates

The **existing view** to the west toward the existing SWPL transmission line. The I-8 Alternative would be located parallel and adjacent (to the right) to the existing SWPL line as it through the staging area and crosses the Yuha Desert. Views from the staging area are open and panoramic and views of the route are unobstructed. The Plaster City West Staging Area is a popular access point into the Yuha Desert north of I-8 and Evan-Hewes Highway.
