

Michael Clayton & Associates

The **existing view** to the west toward the undeveloped hills along the eastern border of MCAS Miramar, northwest of Santee Lake. SDCPP Site 1B/1C is located between the pond in the foreground and the narrow valley at the base of the prominent hill (with transmission towers). Site 1D is located between the narrow valley and the crest of the hill along the existing transmission line. In spite of the prominent transmission infrastructure that borders the site on the west and south, the landscape is predominantly natural in appearance.
