RE: Sunrise Powerlink Project – Mitigation Measure Compliance
Mitigation Measure H-7a Task 1 for Sunrise Powerlink Transmission Project

Ms. Coronado:

Compliance with this mitigation measure requiring the preparation and implementation of a Hazardous Substance and Emergency Response Plan will be fulfilled by development and submittal of Site Specific Stormwater Pollution Prevention Plans (SWPPPs). These SWPPPs will contain procedures to reduce the potential of spills and emergency response information to ensure safe and prompt clean-up of spills. A Notice of Intent has been submitted to the California State Water Resources Control Board and Waste Discharge Identification (WDID) Number numbers have been assigned as follows:
