RE: Sunrise Powerlink Project – Mitigation Measure Compliance
Mitigation Measure WR-1a Task 1, WR-1a Task 2, and WR-1b Task 1 for Sunrise
Powerlink Transmission Project

Ms. Coronado:

San Diego Gas & Electric, Co. (SDG&E) met with Maryanne Vancio, San Diego County Trails Program Coordinator, on September 21, 2010 to coordinate construction activity impacts to a portion of the California Riding and Hiking Trail that is adjacent to Alpine Boulevard. Construction of Link 4 will not occur on the trail.

Signs will be posted at either end of the trail along Alpine Boulevard to notify users of construction activities.

Sincerely,

A handwritten signature in black ink, appearing to read "Jose Lopez".

Jose Lopez, Project Manager – 230 kV Underground

Cc: Alan Colton, Manager – Environmental Services
