City, State, Zip Code*: BOULEVARD CA 91905

Telephone Number*: 619-766-4040

Email*: trish@sciti.com

I am opposed to this project in its entirety. It is an antiquated energy proposal and extremely costly for the public - the rate payers. It's well known that a good amount of power generated is LOST when transmitted over great distances. We have a perfect opportunity to put some of our great minds to work and forge ahead with new + improved ideas to implement alternative energy in a profoundly forward looking manner.

MR BILL POWERS "Smart Energy 2020" offers some starting points and building blocks from which to gather ideas.

SDG+E should not be so greedy - wanting the profits from the Powerlink. In-Basin renewable energy sources are what's needed, NOT the Sunrise Powerlink.

*Please print. Your name, address, and comments become public information and may be released to interested parties if requested.

Please either deposit this sheet at the sign-in table before you leave today, or fold, stamp, and mail. Insert additional sheets if needed. Comments must be received by August 25, 2008. Comments may also be faxed to the project hotline at (866) 711-3106 or emailed to sunrise@aspneg.com.

The project is unneeded and will destroy our beautiful viewsheds and recreation areas. No on Sunrise Powerlink
