IV. CONCERNS EXPRESSED

LINK 1: Rough Acres, Jacumba, McCain Valley and Imperial Valley Substation

No concerns expressed this week from representatives at this link.

LINK 2: Bartlett & Kreutzkamp Yards

No concerns expressed this week from representatives at this link.

LINK 3: Suncrest Substation

At the beginning of the week, March 14, Mr. Pinto reports pending movement of rocks, and the next day, noted that would probably be delayed until the following week. By the 19th he reported rain over the coming weekend which probably would delay the rock moving further.

LINK 4: Alpine Underground Substation; Alpine Boulevard; Alpine Bullpen

Mr. D. Elliott expresses concern that more work trucks are needed. He also expresses that a Native American monitor should be present at the bullpen at all times.

Mr. Elliott's request for more trucks is noted and has been conveyed to the person who authorizes the work trucks. Additionally, his request to have a Native American monitor at the bullpen on a daily basis is already in effect.

LINK 5: Hartung & Sycamore Yards

No concerns expressed at this time.

V. SUMMARY

The project continues with few resources being observed at this point in time and few concerns expressed at this time, none of which pertain to cultural resources.

VI. SUMMARY PREPARER

Hillary Murphy, Project Archaeologist, Tierra Environmental Services, Inc.
Joseph M. Nixon, Senior Anthropologist, Tierra Environmental Services, Inc.

The Elliott's are not recognized members of the Manzanita Tribe as is stated on some of their reports. This is direction from the Manzanita Tribal Council. I have expressed to the Elliotts that they cannot write that they represent Manzanita on these forms in the past. As a result I have listed them as Kumeyaay descendants. HM
