Re: Sunrise Powerlink  
Modified Route & Alternatives

Dear Ms. Blanchard,  
These past years have had us dealing with hazardous waste plants and landfills (adjoining our water sources).

Now comes along 150 foot towers/500 kilowatts of electricity.

This has been labeled as unadvisable for the Parklands.

How is it more suitable to meander through homes & properties of residents?

I strongly object to this invasion, as do most of the residents; except perhaps those who will gain financially, & will sign any petitions to prevent this.

A very concerned citizen,  
Doris Lane
