**Re: Overhead Poles and Transmission Wires – Mission Viejo, Ca.**

***This community is saddened by the attempt to add more wires and poles further impacting the beauty of our Lake area. Not only should additions be placed underground, but existing ones as well.***

***This is the way of the future as in all other areas of Mission Viejo and surrounding communities. Infringing on this territory is barbaric and offensive. Life's impacts deserve improvements.***

***This aggression is a hazardously offensive liability to an area that prides itself on esthetics. The Flo Jo Park was awarded the most outstanding park in the State of California for its design and beauty. Homes in this area are greatly valued, and Lake Mission Viejo has been the showplace of our City.***

***We take pride in our area, and it's preservation. The opposition of this community will not stop resisting until these transmission lines are buried.***

***Sincerely,***

***Susan McDonald  
22351 Sunbrook  
Mission Viejo, Ca.***

**Letter from Susan McDonald dated March 19, 2004**

- 6-1 Thank you for sharing your concerns. Please see General Response GR-3, which discusses options for placing the transmission lines underground, as well as Appendix 8, which discusses various route options considered by the CPUC.
