**Letter from John, Karina, Brittney, Ashley, and Kelsey Clark dated March 22, 2004**

March 22, 2004

Michael Rosauer  
California Public Utility Commission  
C/O Aspen Environmental Group  
30423 Canwood Street, Suite 215  
Agura Hills, Ca 91301

Mr. Rosauer,

**Our family is totally opposed to the proposed Southern California Edison Viejo Systems Project!** The new and existing lines need to be buried!

9-1

We are writing to you as a concerned homeowner in the city of Mission Viejo. Our home backs to SCE's power lines. We are directly impacted by these lines and worry about the health of our family. We have 3 small children that we would like to see grow into healthy adults. Would you want your children living and playing under high voltage lines Mr. Rosauer?

Southern California Edison has added additional lines over the years without notifying the public. It's only now that they need to add larger poles, to support even more lines, that the public is even being made aware of their plans. Southern California Edison has not made a good faith effort to work with the city on this project at all. We support the residents of Mission Viejo, the city counsel, and the NOPE Team **TO HAVE THESE LINES BURIED!**

9-2

These lines are a visual blight and they want to add more? There will be a wall of lines directly behind my house...It is time to bury the lines!

A concerned Mission Viejo Family,

  
John, Karina, Brittney, Ashley, and Kelsey Clark
