Michael Rosauer
California Public Utility Commission
C/O Aspen Environmental Group
30423 Canwood Street, Suite 215
Agura Hills, Ca 91301

Mr. Rosauer,

Our family is totally opposed to the proposed Southern California Edison Viejo Systems Project! The new and existing lines need to be buried!

10-1

We are writing to you as a concerned homeowner in the city of Mission Viejo. Our home backs to SCE's power lines. We are directly impacted by these lines and do not want anymore added! In fact, we would like the present ones buried!

Southern California Edison has added additional lines over the years without notifying the public. It's only now that they need to add larger poles, to support even more lines that the public is even being made aware of their plans. Southern California Edison has not made a good faith effort to work with the city on this project at all. We support the residents of Mission Viejo, the city counsel, and the NOPE Team **TO HAVE THESE LINES BURRIED!**

10-2

These lines are a visual blight and they want to add more? There will be a wall of lines directly behind my house... It is time to bury the lines!

A concerned Mission Viejo Family,

Wolf and Eileen Braumann
