Re: Power lines - Lake Forest
to Mission Viejo, Edison Co

I would like to add my voice
against Overhead Power Lines from
Lake Forest to substation in Mission
Viejo -

This area is Pristine and this time
Overhead Power lines would be a blight
to the area.

For years I lived in the San Fernando
Valley & can speak that overhead lines
were an ongoing problem - I really
think that the added cost to have
underground lines would be offset by
maintenance over 40 or 50 years.

Edison Co users are going to pay for
them & I believe the added cost to them
for the added cost bills for underground
lines would not be objected to -

Thank You,
John P. Grazer

Response to Comment Set 18
Letter from John P. Grazer dated April 4, 2004

- 18-1 Thank you for expressing your concerns. Please see General Response GR-4 regarding aesthetic impacts of the proposed project.
- 18-2 Please see General Response GR-3 regarding undergrounding of existing and proposed electrical transmission lines, as well as Appendix 8, which discusses various route options considered by the CPUC.
