Subject: Viejo System Project

Dear Sirs:

I'm sure you have received hundreds if not thousands of e-mails from concerned and angered Mission Viejo residents regarding the proposed Viejo System Project...here's another. I'll keep it short and sweet....**BURY THE LINES!!!!** This is ridiculous, other cities have been able to accomplish the task, why can't we? We're not asking Edison to foot the bill so it appears as though it's a win-win...please consider. Thank you.

38-1

Sincerely,

38-1 Thank you for providing your opinion. Please see General Response GR-3 for information regarding the undergrounding of electrical transmission lines, as well as Appendix 8, which discusses various route options considered by the CPUC.
