Subject: Mission Viejo Power lines

I am a resident of Mission Viejo who will be impacted by the proposed power line project. I understand the need for an expansion of the system to handle future power needs. My family and I would fully support the new lines if they were buried underground. We strongly oppose the proposed towers which will be an eyesore and will devalue our property. Please take these comments under advisement as you weigh your decision.

56-1

Sincerely,

Mike and Mary Nolan

56-1 Thank you for sharing your concerns. Please see General Response GR-3 for information regarding the undergrounding of electrical transmission lines, as well as Appendix 8, which discusses various route options considered by the CPUC.
