Agoura Hills, CA 91301

Dear Mr. Rosauer:

We have been Mission Viejo residents since 1980. We have seen what it was like before all the building went up - and the overhead power lines. We have consistently gone to meetings and supported the lines being burried, and having new lines put underground. Is there no say for the Public? Are we going to listen to the opposers only? Isn't that what a Democratic Society about?

Of course Edison is thinking "money". Well, the people of Mission Viejo want the community serene - like it was originally planned. It is not safe for the children of this community to play in the parks with the overhead power lines. What about the health risks?

As concerned citizens of Mission Viejo, I urge you to strongly consider the comments of the people in speaking with the Law Judge.

We appreciate your attention to this matter.

57-1 Thank you for sharing your concerns. Please see General Response GR-3 for information regarding the undergrounding of electrical transmission lines, as well as Appendix 8, which discusses various route options considered by the CPUC.
