Re: Viejo System Project

Dear Mr. Rosauer:

Please stop the addition of anymore overhead power towers specifically the Viejo System Project . I currently have two huge towers not more than 50 feet away from my home which bring down the property values in Mission Viejo, and also are a health concern.

Please update these systems to underground power systems, and add new ones underground as most other cities do within Orange County.

Thank you for your consideration.

8-1

- 8-1 Please see General Response GR-2 regarding property values and General Response GR-1 regarding EMF. Undergrounding of the power lines is discussed in General Response GR-3.
