**To:** Blanchard, Billie C.  
**Cc:** Millar, Neil; Pinjuv, Jordan; Doughty, Thomas  
**Subject:** Question for West of Devers DEIR

Hi Billie,

Thank you for the presentation and the opportunity to submit a question below. We look forward to your response.

Regards,  
Delphine

The DEIR refers numerous times to the views of the CAISO and SCE (and only those organizations) regarding the 2024 Reliability base case and the level of generation viable in the region. One of the more complete such references is provided below:

*"The CAISO's 2024 Reliability base case, from the CAISO's 2013/2014 transmission planning process (one of the base cases used in the alternative analysis) represents the view from the CAISO's and SCE's perspective (a collaborative effort) of the level of generation deemed viable (based on a number of criteria) and to be in place and operational in 2024. "*

Emphasis added. Bottom page 5, top of page 6, Attachment in Appendix 5 "West of Devers Upgrade Project / CPCN Application - A.13-10-020 / Project Alternatives Assessment / A Power Flow Analysis For Aspen Environmental Group By ZGlobal, Inc. / May 4, 2015

Please provide the specific CAISO document references relied upon in making the above statement.
