Question F-03 f:

Wildland Fire

- F-3** PEA Section 4.8 mentions “protocols” and SCE’s participation with the Red Flag Fire Prevention Program in the discussion of fire risk impact evaluations.
- f. How is fire safety addressed in training in both the construction and maintenance phases of the project?

Response to Question F-03 f:

Construction: The Worker Environmental Awareness Program (WEAP) training will include a general discussion about fire management, such as proper notification if a fire is discovered in the field and safe welding procedures.

Operation & Maintenance: As mentioned in SCE's response to Question No. F3-h, training is accomplished through yearly acknowledgment of SCE's Accident Prevention Manual. Additionally, SCE field personnel receive annual fire extinguisher training.
