DATA REQUEST SET A.13-10-020 WODUP ED-SCE-02

To: ENERGY DIVISION
Prepared by: Nicole Di Jerlando
Title: Environmental Project Manager
Dated: 04/02/2014

Question BIO-08b:

Biological Resources

BIO-8 Impact areas.

b. Temporary construction roads are listed as a permanent disturbance. According to APM-BIO-1 (revised), only temporary disturbance areas will be revegetated. Please verify and explain why temporary construction roads will not be revegetated.

Response to Question BIO-08b:

Table 3.2-E3: Transmission Shoo-Fly Approximate Land Disturbance, classified the Temporary Construction Roads acreage as a permanent disturbance. The Temporary Construction Roads should have been classified as acres to be restored (temporary).

The shift of Temporary Construction Roads to the temporary impact column from the permanent impact column of the table would result in a total estimated temporary disturbance acreage of 124.6 acres, and permanent disturbance of 0.0 acres.

APM-BIO-1 (revised) would be applicable to the Temporary Construction Roads.
