Question BIO-17:

Biological Resources

BIO-17 Surveys for CAGN in 2012 and 2013 were negative and Table 4.4-6 in the PEA does not indicate that CAGN were observed on the project route. However, CAGN appears on the list of wildlife species detected in Appendix Q of Appendix F. Please provide the location and other pertinent information regarding the detection of CAGN.

Response to Question BIO-17:

The observation of a CAGN on the project route was included in error and should not have been listed in Appendix Q – Wildlife Species Detected List.
