This image presents a **Visual Simulation** of the **Proposed Project plus a Future 500 kV Transmission Line** (cumulative project) from **KOP 12**, at the **Moronggo Community Center**. This simulation illustrates the addition of a future 500 kV tubular steel pole transmission line adjacent and to the north of the Proposed Project in the proposed new ROW. The 500 kV structures would be approximately the same height as the 220 kV structures in Segment 5 due to airspace restrictions.
