Josh,

Our project was dropped from the CalSO queue recently. We have protested the reasons for CalSO dropping our project with FERC, but under the existing CalSO tariff, even if we win the case its unlikely they will reinstate our queue position.

Please feel free to call me if you have any additional questions.

Best regards,
Rhonda

Hi Rudy,

I just wanted to follow up regarding the CPUC Wind Project Questionnaire. Are you still able to provide information regarding the Concepcion II Project? If so, can you provide by next Wednesday, February 3?

Regards,

Josh Saunders

Hi Josh,

We'll try to provide you with the information requested before 1/22.

Regards,

Rudy

Subject: Concepcion II Project

Hello Rudy,

As the California Public Utility Commission's environmental consultant for the preparation of the East County Substation Project EIR/EIS, Dudek has been asked to gather information about wind energy projects that could potentially tap into the proposed East County Substation. The Concepcion II Project has been identified as such a project.

I've attached the CPUC letter requesting information regarding the Concepcion II Project. If you can provide the requested information by January 22, 2010 (or sooner if possible) it would be extremely helpful.

If you have any questions do not hesitate to contact me.

Thank you,

Joshua Saunders
