Rica, Iain:

In response to your request (data request No. 1 and the supplemental questions provided in your e-mail below), generally requesting references to support the assertions to Sempra's responses.

The referenced responses are based on discussions between Sempra and CFE over the course of various years, beginning generally during the development of the Termoeléctrica de Mexicali combined cycle project and most recently with respect to the ESJ wind project. Sempra Generation does not currently have written documentation of these referenced statements as they were made during the course of various conversations and meetings with CFE officials. The following CFE personnel contacts are provided for your reference.
