***Subject: Pacific Gas and Electric Company Martin Substation Extension/Egbert Switching Station Project (Application No. 17-12-021) - Data Request No. 6***

Dear Mr. Liddell:

The California Public Utilities Commission's (CPUC's) Infrastructure Permitting and California Environmental Quality Act (CEQA) section is in the process of preparing the Draft Environmental Impact Report (EIR) for the Egbert Switching Station Project (Martin Substation Extension) (proposed project). During preparation of the Draft EIR, including the Hazards and Hazardous Materials analysis section, it has been determined that additional information is required. Please provide responses to the following:

Written results of the soil, groundwater, and soil vapor sampling. The subsurface investigation report shall document sampling locations, sampling protocol, and laboratory analyses conducted on the samples, including testing for the complete list of analytes required by the Maher Ordinance, as well as radiological analysis. If existing data is available from other previous sources, this information should be included as well. While the final Site Mitigation Plan (SMP) can be provided to CPUC at a later date for review and approval prior to any construction activities, draft results per this Data Request No. 6 must be provided to be included in the Draft EIR prior to its release for public review. This information is pertinent to all affected areas of the alignment, including on and in the vicinity of the proposed Egbert Switching Station site.

We would appreciate your response in support of the analysis for the Egbert Switching Station Project (Martin Substation Extension) Environmental Impact Report. Please send requested information to Eric Chiang (CPUC Energy Division) and Wendy Worthey (Dudek) no later than August 9, 2019. Upon receipt, CPUC will review and determine if additional information is required. At any point in this process, the CPUC reserves the right to ask for additional information.

If you have any questions regarding this letter or need additional information, please contact me at 415.703.1956 or [eric.chiang@cpuc.ca.gov](mailto:eric.chiang@cpuc.ca.gov).

Sincerely,

Handwritten signature of Eric Chiang

Eric Chiang, CPUC Project Manager
