**Letter:**

Dear Bureau of Land Management and California Public Utilities Commission:

It's important we keep the Tule Wind Project at its proposed size. Wind Energy is free and an unlimited resource. It will reduce smog and contribute to California reaching its renewable energy goals.

Again, as a resident of San Diego County, I encourage you to certify the EIR/EIS on the Tule Wind Power Project as it is currently proposed.

Dave Demuth  
840 Avocado Ln  
Carlsbad CA, 92008
