RE: Preliminary Data Request for San Diego Gas & Electric Company's Application for a Permit to Construct the Salt Creek Substation Project (A. 13-09-014)

Dear Ms. Pierce:

The California Public Utilities Commission (CPUC) requests additional data related to the Salt Creek Substation Project (A. 13-09-014). These additional data will aid us in reviewing the Proponent's Environmental Assessment for completeness. The specific data needs and reports that are required are identified by resource area below.

General

Please provide the MS Word files and GIS files used to prepare the PEA.

Air Quality

Provide the input files used to conduct the air quality modeling.

Cultural Resources

Provide cultural resource survey reports covering the project area, including:

1. Bowden Renna, Cheryl. 2012a. Cultural Resources Survey for a Proponents Environmental Assessment (PEA) for the Salt Creek Substation and Transmission Line Improvement Project in the Otay Mesa Area of Southwestern San Diego County, California. Prepared by AECOM. Prepared for SDG&E.
2. Bowden Renna, Cheryl. 2012b. Revised Cultural Resources Survey for a Proponents Environmental Assessment (PEA) for the Salt Creek Substation and Transmission Line Improvement Project in the Otay Mesa Area of Southwestern San Diego County, California. Prepared by AECOM. Prepared for SDG&E.
3. Bowden-Renna, Cheryl. 2013. Addendum 1: Revised Cultural Resources Survey for a Proponents Environmental Assessment (PEA) for the Salt Creek Substation and Transmission Line Improvement Project in the Otay Mesa Area of Southwestern San Diego County, California. Prepared by AECOM. Prepared for SDG&E.
Bowden-Renna 2012b

Ms. Jennifer Pierce

Page 2

4. Clowery, Sara C., and Nicole Blotner. 2012. eTS #8360: TL 6910 Wood to Steel, Miguel to Pole 139635, Cultural Resources Inventory Report (HDR #137257). Prepared by HDR. Prepared for SDG&E. Report on file at SDG&E.
5. Whittaker, James E. 2011. eTS #3845, Cultural Resources Results for Constraints Study for the Proposed Otay Ranch Substation, Chula Vista, San Diego County, California (DHR #143298-001). Prepared by HDR. Prepared for SDG&E. Report on file at SDG&E.

Greenhouse Gases

Provide the input files used to conduct the greenhouse gas emissions modeling.

Traffic and Transportation

Specify the method that was used to calculate the traffic volume and estimate trip generation during construction. Provide traffic calculations by trip type (e.g., import of aggregate, other truck trips, worker vehicles, etc.) and by phase (peak and non-peak periods of construction). Identify the level of service (LOS) on area roadways (i.e., A through F) for existing conditions and construction.

Please let me know when these materials will be provided. Thank you.

Sincerely,

Jason Coontz
Project Manager
