April 24, 2012

Mr. Matthew Fogelson  
Attorney at Law  
Pacific Gas and Electric  
77 Beale St.  
POB 7442, B30A  
San Francisco, CA 94120-7442

Re: Application of Pacific Gas and Electric Company for a Permit to Construct the  
Santa Cruz 115 kV Reinforcement Project  
Application No. 12-01-012

Dear Mr. Fogelson,

The California Public Utilities Commission (CPUC) Energy Division, Infrastructure Permitting and CEQA Branch, has conducted a deficiency review of PG&E's Application (A. 12-01-012) and Proponent's Environmental Assessment (PEA) filed by PG&E on January 25, 2012 for a Permit to Construct the proposed Santa Cruz 115 kV Reinforcement Project.

The Energy Division finds that Application and PEA contain sufficient information to satisfy the requirements of the Commission's Information and Criteria List and accordingly deems this Application complete.

Though the CPUC Energy Division deems this application complete, the CPUC may request additional data, as necessary, to prepare a complete and adequate analysis of potential environmental effects associated with this proposed project in accordance with the requirements of the California Environmental Quality Act.

Sincerely,

Lisa Orsaba  
Project Manager  
CPUC Energy Division
